## Cover Letter: Test AI Developer

Dummy Test Company Kyiv 2026-07-05

Dear Hiring Manager,

I am writing to express my interest in the Test AI Developer position at Dummy Test Company. With a strong background in AI agent architecture and automation, I am excited about the opportunity to contribute to your innovative projects in the AI domain.

As an AI Agent Architect and Solutions Specialist, I have a proven track record of developing autonomous AI agents that enhance business processes and improve lead conversion rates. My unique blend of technical expertise in LLM architecture and marketing insights allows me to create solutions that drive measurable results.

- **Developed a voice AI agent for a real estate agency that autonomously contacted clients and provided consultations.**, Increased client engagement by 40% and reduced the need for human intervention in initial consultations.
- **Designed an n8n workflow for automated lead qualification that captured requests from multiple channels.**, Reduced response time from 4 hours to just 3 minutes, significantly enhancing customer satisfaction.
- **Implemented a complex RAG system for customer support in a bus ticket sales company.**, Successfully offloaded 10 live operators while maintaining high service quality, leading to a 30% reduction in operational costs.

My expertise in AI and automation directly addresses the challenges faced by Dummy Test Company in developing efficient agents and LLMs. I excel at creating scalable systems that not only automate tasks but also enhance user experience through intelligent interactions. My ability to integrate AI solutions with existing workflows ensures seamless implementation and maximised productivity.

I am eager to bring my skills in AI development and automation to Dummy Test Company and am confident in my ability to contribute to your team's success. Thank you for considering my application. I look forward to the opportunity to discuss how I can add value to your projects.
